

# The BBQ As the Centerpiece

The owners, Aaron G. Thomson and Sarah R. Wilson, wanted an upgrade to provide aesthetic and functional improvements that made the garden more livable. Wilson designed the space and selected all the contractors, Hughes Custom Masonry, Creative Countertops and Green Thumb Solutions.

The couple matched and extended the existing rock face from the fireplace. It ties that entire side of the yard together aesthetically and provides greater capacity for grilling. The barbecue is the centerpiece of this outdoor living space.

They note that they're still in the early stages of progress and expect that the backyard will be incredible in

another three to four years. But they "absolutely love" the end result so far.
